

Literacy— Can you write a brilliant film or book review about something you have read or seen?

Maths—Can you invent a number code so you can send secret messages? Use your code to set friends and families a word problem.

**Maths and Literacy keep using My Maths and Spelling Shed. We will be setting some work for you to do too every week on Education City too! Times tables!**

**Don't forget to keep exercising your brain and working on your tables.**

*History—Use the internet or a book to research a historical artefact or event and then write a report or produce an information poster. Maybe use the Museum of London or the British Museum to help your investigations.*

**Literacy— Imagine you find a door in your house or garden that was not there yesterday! Where is it ? Where does it lead to? Can you write a super story about what happens when you go through it ?**

What would you put in a time capsule to show people in the future what it was like for you to be off school? Why?

Free choices. Try something else. Surprise us with your amazing ideas and inventiveness, ingenuity and imagination! Art, poems models, writing or anything else you can come up with. Please send us some photo's so we can see what you are up to too.

## RE- 2.

1. reflect on how we might become more self-giving during Lent. Think about how you could help someone during lent and what challenges you might face. Write a letter to someone you would help explaining how you would use your self discipline to help them and overcome any challenges.
2. design an information sheet which outlines how Christians can be/need to be more self-disciplined in their daily lives. Include ways in which we can live out this message at school, at home and with our friends, giving reasons for some of these actions.
3. Jesus washed the disciples feet as an act of service. This was normally a servants task. How do you think they might have followed Jesus' example of service? How can Christians follow Jesus' example of service? - write a list of things you could do as an act of service for others.
4. Use the internet or your own bible and read about the events on the day Jesus was Crucified. Imagine you were present on the day Jesus was crucified. Write an account for your friends about what happened on that day, how you felt and what you think it means. You could do this as a letter or Diary entry or in a story format.

**Year 4 — More home working Ideas for when you are off school !**

**DT—Using your knowledge of circuits and electricity can you design a new light for your bedroom. Design the circuit and the light itself—draw some diagrams and be as wild and imaginative.**

Art—Why not draw yourself or an other member of your family in the style of Andy Warhol—using bright contrasting colours. Or maybe plan a redesign your bedroom with a whole new colour scheme.

ICT—If you have access to the scratch system why not design a game that keep score? Or design a program to draw different shapes.

**Science – Check out Education City and the weekly classwork for some science tasks. Why not start a weather journal noting down the differences each day. Maybe even make a video of a weather report each day to share . If you have a garden why not keep a journal of all the animals that you see in it— design a bar chart to show your findings and write a report on what you found out.**
